

Talking Toolkit: practical strategies to support communication in the classroom.

An interactive and practical course, developing knowledge, ideas and strategies to support language for learning, including small group work targeting specific aspects of language.

Good language and communication is essential for learning and the development of good literacy skills. Most children benefit from a range of classroom strategies that support the development of these important skills.

The **Course Aims** to enable participants better support and improve children's outcomes by developing knowledge and practical skills to create their own "Talking Toolkit" in order to support effective language for learning in the classroom.

After attending participants will be able to:

- Implement key principles for supporting communication in primary classrooms.
- Understand how to ensure the classroom environment supports communication.
- Create their own Toolkit of language activities.
- Implement practical strategies to embed language into teaching and learning.
- Access a range of signposted resources to help track and monitor progress.

Who is the course for:

Teachers and support staff in primary schools who want practical ideas to support children's language and / or are working with children with language delay.
